

Southern States Realty

8.5 acres of land with beautiful rolling hills located within walking distance of Fernwood Golf Course and Fernwood Country Club. This property is situated between several beautiful high-end homes in a private secluded location. There are no restrictions on the property and city sewer is located very close to the location with an easement for the sewer already in place. There is also community water, electricity and natural gas. The property would make a great location for a hidden subdivision or for a single family homesite with beautiful hilltop views. Additional land is available.

Country Club Road, McComb, MS
