This 3 bedroom, 2 bath home has a split plan and is conveniently located on a corner lot near the hospital and the mall. A large open living/dining room has almost new flooring. The kitchen/breakfast area is located on the north end of the home as well as the master bedroom and bath. On the south end of the home are two more bedrooms and a full bath. Outside, you'll find a building that has been used as an office, but could easily be used as a "man cave". Another storage building is located in the back yard. The 2 car carport features two additional storage rooms. Also, a nice covered back porch provides a great view of the back yard. This one is vacant and ready for you to move in.
