Hunting Land for Sale on Diamond Island. Looking for hunting land in one of the top big buck producing areas in the south? Look no further. This +/-130 acre tract is located right on the banks of the MS River just across from Vicksburg, MS. Not only is this tract fantastic hunting, but it comes with a lot on the river to build your dream camp. The property features giant hardwood timber, several small duck sloughs and three established food plots. The property's location on the island is super high, so when the rest of the island is flooding you'll have even higher deer numbers than normal. The island is known for producing 150' - 170' deer year in and year out. The strict management on the island allows deer to get to older ages and the deer numbers are second to none. Smaller tracts like this have NEVER been offered on the island. This is a chance to hunt where the big boys roam without having to have a million dollar budget. Call today to set up your showing of this wildlife paradise.
