Hunting Land for Sale on Diamond Island. Looking for hunting land in one of the top big buck producing areas along the MS River? Look no further. This +/- 205 acre tract is located on the banks of the MS River just across from Vicksburg, MS. Not only is this tract fantastic hunting, but it comes with a lot on the river to build your dream camp. The property features giant virgin hardwood timber dropping plenty of acorns to feed the deer on property. There is a huge pipeline on the property that would make for a great food plot to see 20+ deer per hunt. The property's location on the island is super high, so when the rest of the island is flooding you'll have even higher deer numbers than normal. Strict management has made the island known for producing 150' - 170' deer year in and year out. Tracts like this have NEVER been offered on the island. It isn't often you get an opportunity at a tract like this, so it will not last long! Call today to set up your showing of this wildlife paradise.
