133.69 Acres

Wisconsin Land For Sale

Land & Legacy Group proudly presents a rare chance to own over 133 acres in Dodge County, right on the northern edge of Watertown, in the Town of Emmet.

This property includes about 108 tillable acres with highly productive soils like Pella silty clay loam and St. Charles silt loam (both rated over 90 NCCPI), plus others like Elburn and Miami silt loam. The average soil productivity (NCCPI) is an impressive 59.14, making it ideal for growing corn, soybeans, and more. Drain tile and ditches help manage water efficiently.

The rest of the land is a mix of woods and open space, adding versatility and appeal for recreation or potential building sites. Access is easy from Carriage Hill Drive, and the property is close to both Highways 26 and 16.

Right now, it's zoned A-2 (General Agricultural), but the City of Watertown's Comprehensive Plan shows this land is designated for a "Planned Neighborhood." That means future development could include homes, duplexes, apartments, schools, parks, or small mixed-use areas. It's an excellent opportunity for both farmers and investors looking ahead.

The managed forest land program is a landowner incentive program that encourages sustainable forestry on private woodlands by exempting the landowner from the payment of property taxes in exchange for the payment of a lower acreage share payment and compliance with certain conservation practices. Orders designating lands as managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the managed forest land program changes, the new owner must sign and file a report of the change of ownership on a form provided by the Wisconsin Department of Natural Resources (DNR) and pay a fee. By filing this form, the new owner agrees to comply with the management plan for the land and the managed forest land program rules. The DNR Division of Forestry monitors forest management plan compliance. Changes that a landowner makes to property that is subject to an order designating it as managed forest land, or to its use, may jeopardize benefits under the program or cause the property to be withdrawn from the program and may result in the assessment of penalties. For more information, call your local DNR forester or visit http://dnr.wi.gov/topic/forestry.html . | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

ADDENDUM W - WETLANDS

1 USE FOR SALE OR LEASE OF PROPERTY THAT CONTAINS OR MAY CONTAIN WETLANDS.

2 This Addendum is attached to and made part of the Offer to Purchase/Lease dated _____

3 made by the Buyer, _____ with respect to the property at
4 _____, Wisconsin (Property).

5 ■ **WETLANDS NOTICE:** It is in the Buyer's best interest to determine if the Property contains wetlands prior to the
6 purchase or lease of the Property because:

7 • **Wetlands are not suitable for development.**

8 Building in wetlands is not recommended because it increases the likelihood of flooding and structural failures.

9 • **State and federal laws require permits before wetlands can be built upon or impacted.**

10 State wetland permit information from the Wisconsin Department of Natural Resources can be found at
11 <http://dnr.wi.gov/wetlands/programs.html>. Federal wetland permit information from the U.S. Army Corps of
12 Engineers can be found at <http://www.mvp.usace.army.mil/regulatory/>. Also, check for local permits. Note, not all
13 projects will be eligible for permits. Construction in wetlands without permits will result in enforcement action -
14 requiring removal of structures, wetland restoration, and potential fines.

15 **To determine if a property contains wetlands.** Wetlands are identified based on the presence of three
16 characteristics: hydric soils (soils indicative of wet conditions), wetland plants, and seasonal water; however, many
17 wetlands do not have standing water for much of the year. Buyer can review maps and other resources for *Locating*
18 *Wetlands* at <http://dnr.wi.gov/wetlands/locating.html>. Professional assistance is often needed to verify the presence or
19 absence of wetlands (see <http://dnr.wi.gov/wetlands/delineation.html> for information).

20 **Wisconsin Wetlands.** Wetlands may be perceived as an amenity or a liability depending upon the desired use of the
21 property, however all wetlands provide important ecological functions. Wisconsin has 12 types of wetlands including:
22 marshes, meadows, wooded swamps, bogs, fens and others. Descriptions and photographs can be found at
23 <http://www.wisconsinwetlands.org/wetlofwisc.htm>.

24 ■ **SELLER INFORMATION**

25 Buyer has inquired of Seller who has indicated that Seller (check one):

26 1. ☒ Does ☐ Does not have notice or knowledge that the Property contains wetlands.

27 2. ☒ Does ☐ Does not have notice or knowledge that the Property contains lakes, ponds, streams, or drainage
28 ditches.

29 3. ☒ Does ☐ Does not have notice or knowledge that the Property contains standing water or areas where water
30 collects at or near the soil surface between March-November in most years.

31 **Note:** Seller's lack of knowledge does not confirm the absence of wetlands.

32 **THE WETLAND EVALUATION CONTINGENCY IS PART OF THIS ADDENDUM IF THE BOX PRECEDING THE**
33 **CONTINGENCY IS MARKED, SUCH AS WITH AN "X". IT IS NOT PART OF THIS ADDENDUM IF THE BOX IS**
34 **MARKED N/A OR LEFT BLANK.**

35 ☐ **WETLAND EVALUATION CONTINGENCY:** This Offer is contingent upon Buyer obtaining a written report which
36 determines if there are wetlands at the Property within _____ days of acceptance of this Offer. Buyer shall arrange
37 for a wetland delineation professional to conduct an on-site evaluation of the Property and prepare a written report, at
38 buyer's cost, unless otherwise agreed in writing. This contingency shall be deemed satisfied unless Buyer delivers a
39 copy of a wetland delineation report to Seller, and the listing broker if Property is listed, which shows the presence of
40 wetlands on the property, within five days of the earlier of: 1) Buyer's receipt of the report or 2) the deadline for Buyer
41 obtaining said report. If the report shows wetlands on the Property (Seller shall provide Buyer with a credit of
42 \$ _____ /wetland acre at closing) (Buyer may rescind this Offer) (_____)

3.6 USE TABLE

Table 3.6-1 below sets forth the uses allowed within the relevant zoning district. The abbreviations used in the table are described as follows:

3.6.1 Allowed Uses

An “A” in a cell indicates that a use category is allowed by-right in the respective zoning district. Allowed uses are subject to all other applicable regulations of this Code, including the Development Standards set forth in Chapter 8.

3.6.2 Conditional Uses

A “C” in a cell indicates that a use category is allowed only if reviewed and approved as a Conditional Use, in accordance with the Conditional Use review procedures of Section 2.3.6.

3.6.3 Committee Option

An “O” in a cell indicates that a use category can be either an allowed use or conditional use at the option of the Committee. If, in the opinion of the Committee, the proposed use sufficiently meets the standards and criteria listed in the Code for such use, then the proposed use can be considered an allowed use and no conditional use permit shall be required.

3.6.4 Numerical References

The numbers contained in the Additional Regulations are references to additional standards and requirements that apply to the use type listed. Standards referenced in the Additional Regulations column apply in all zoning districts unless otherwise expressly stated.

3.6.5 Use Categories/Use Types

The use categories listed in Table 3.6-1 are described in Chapter 3. In some cases, specific uses are listed in the table. The use categories are intended to be mutually exclusive. If a use type is specifically listed in the table, that use type is allowed only in the districts indicated, not within the districts that allow the broader classification. If a use type is not listed, then the Land Use Administrator shall, upon the request of any interested party and pursuant to the procedures set forth in Section 2.1.4.B.9 make a determination within which use category, if any, such use type should be included.

3.7 A-1 Prime Agricultural Zoning District

This Section sets forth the allowed uses and the conditional uses in the A-1 Prime Agricultural Zoning District along with the additional restrictions that apply to uses within this zoning district in accordance with Wisconsin Statutes Chapter 91.

3.7.1 Allowed Uses

Shapes on map represent general recommendations for future land use. Actual boundaries between different land use types and associated zoning districts may vary somewhat from representations on this map. Not all lands shown in a future developed land use category are immediately appropriate for development, rezoning, or subdivision. Environmental Corridors depicted on this map use generalized boundaries of environmental features identified by the DNR. Actual Environmental Corridor boundaries are to be refined through detailed on-site investigation.
