REDUCED! Great homesite or camp site just north of Harrisonburg on Highway 124 with both fishing and hunting opportunity! All the work is done, power and water are both in place and there is a huge slab already built up and in place for your home or camp. Small, affordable tracts in Catahoula Parish are hard to find and rarely come available. The timber on the property is huge and abundant in deer and the bayou behind the home is loaded with white perch and bass. You can have a great escape here and watch the sun go down on the back porch while the wood ducks fly overhead. This is your chance at a great Catahoula Parish property to both hunt and fish on. Give me a call today.
