GRS SURVEY CA 12345

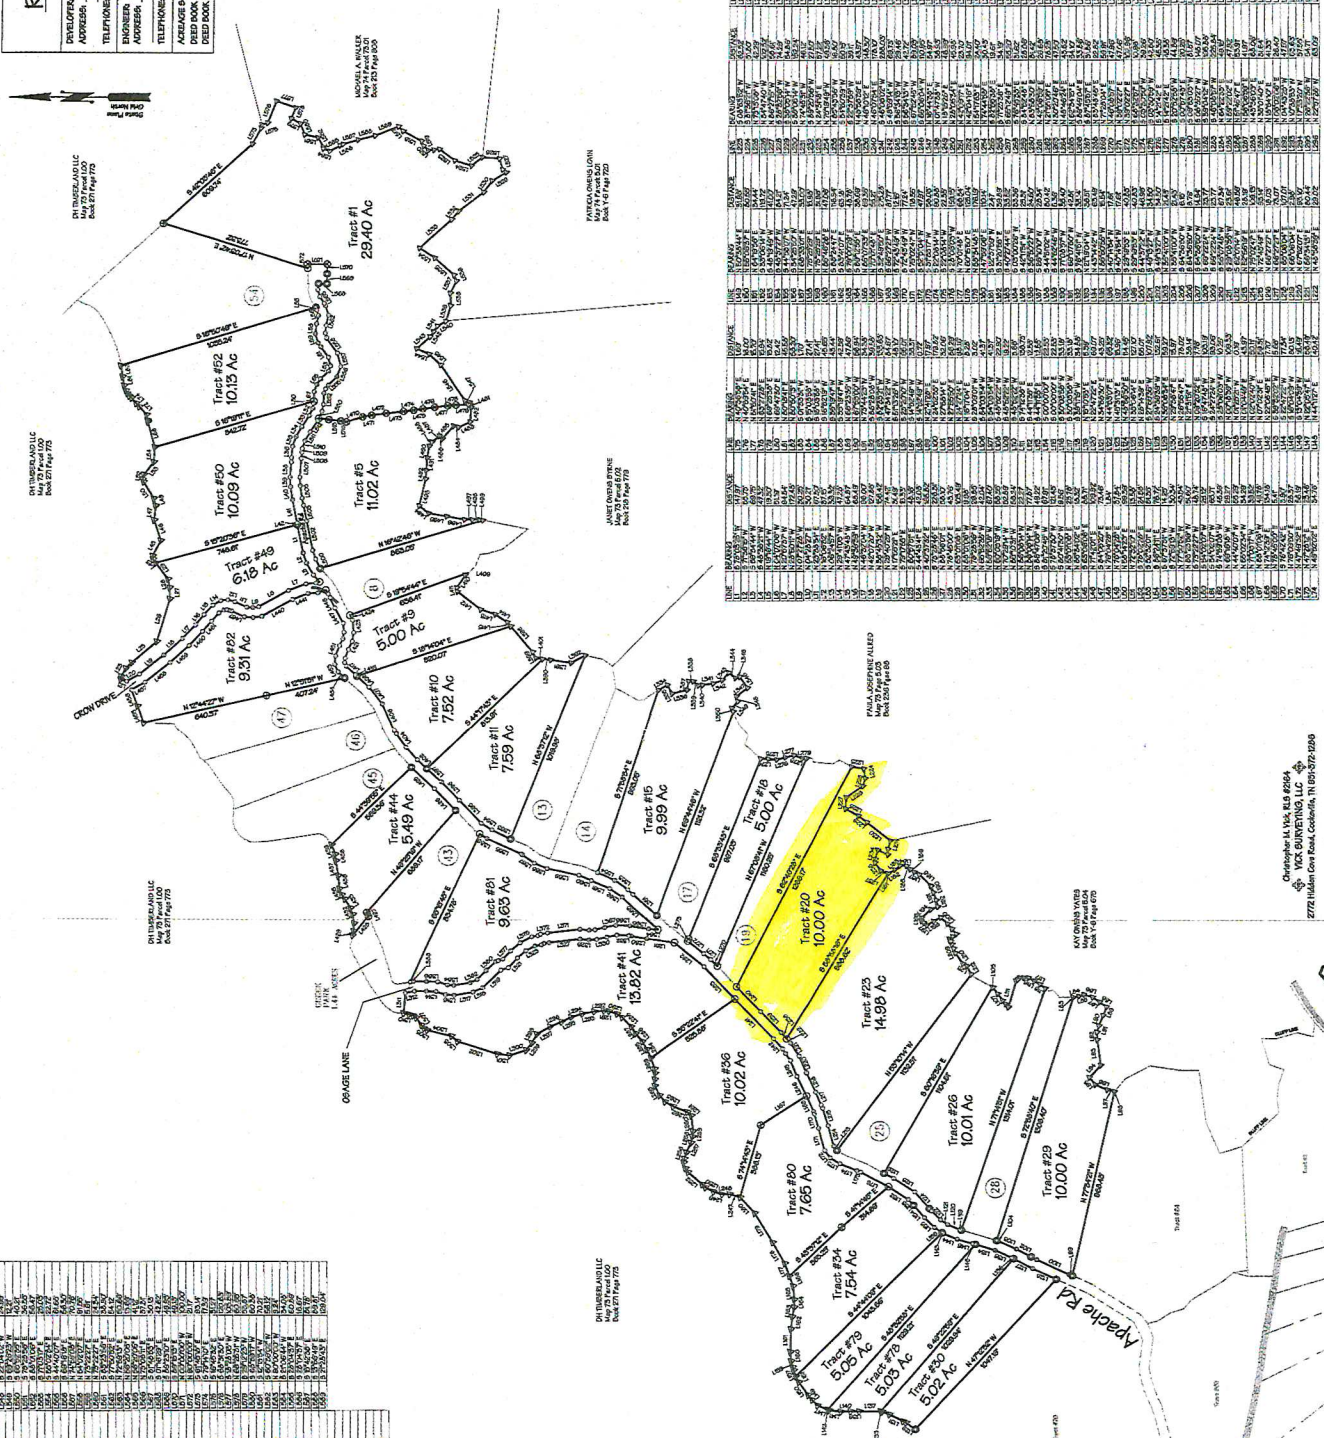

Figure 1 displays a large grid of 100 small plots, each representing the distribution of a specific taxon across 100 different sites. The taxa are labeled on the y-axis, and the sites are labeled on the x-axis. The plots show the relative abundance of each taxon at each site, with colors representing different taxa. The distribution is highly variable across sites and taxa.

LEGEND

●	ROAD
⊙	KELAK (house)
⊗	IRON PIN

Notes: Every document of record reviewed and considered as a part of this survey is noted hereon. This survey is prepared from the current deed of record and does not represent a title search or a guarantee of this and is subject to any state of facts that a current accurate title search will reveal.

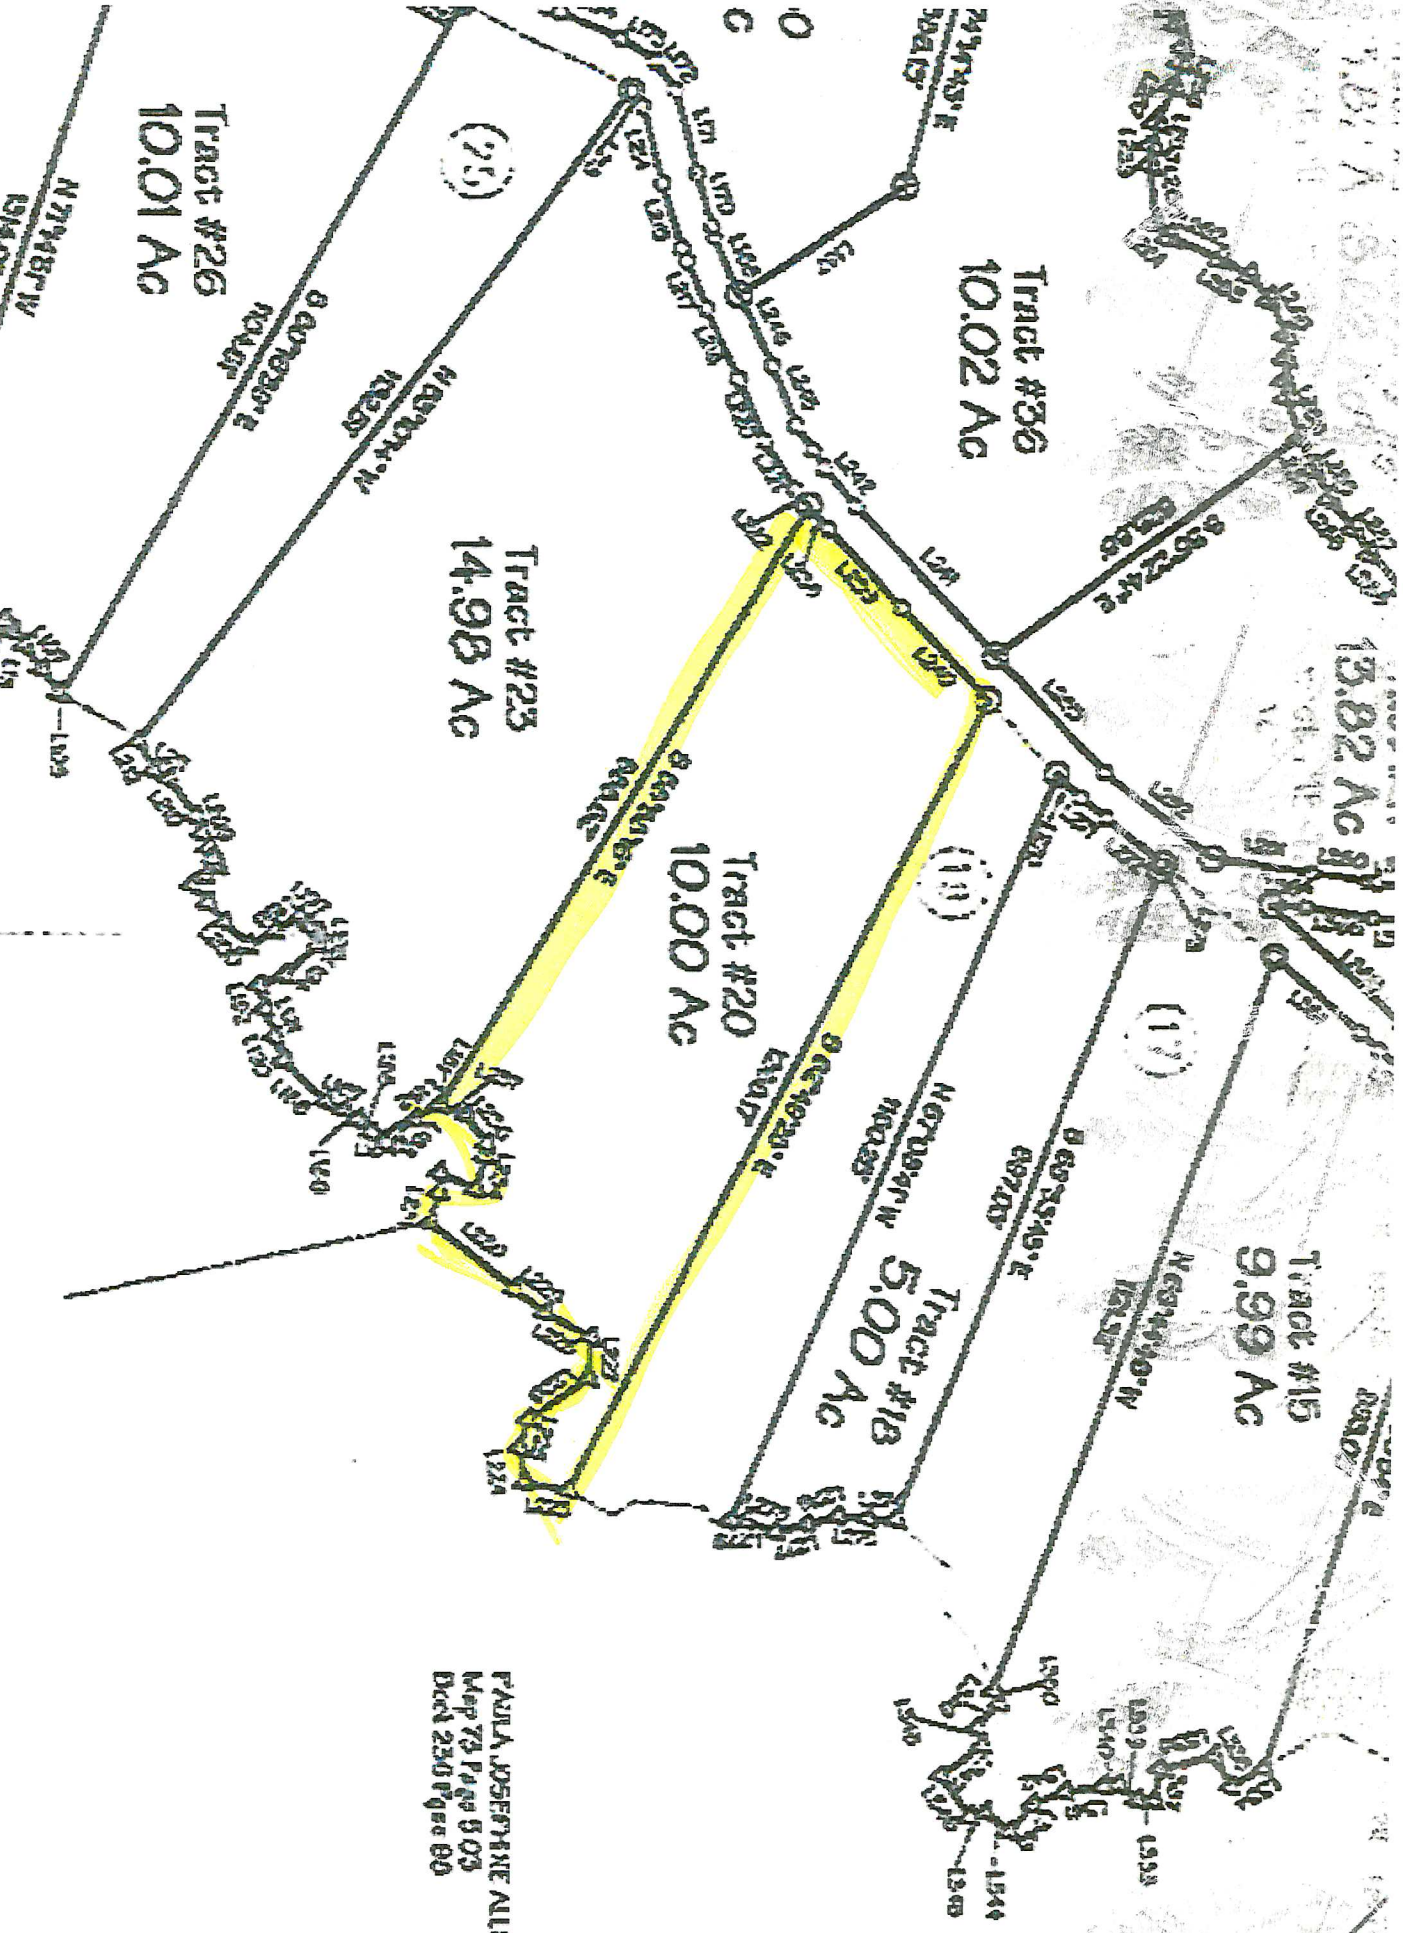

This is a boundary line survey. There is absolutely no certification made as to the existence or non-existence of the following tracts or elements or rights-of-way unless otherwise noted herein: sub-surface utilities or straining above ground utilities other than those which are clearly shown and labeled as such; houses, buildings, structures, ponds, lakes or streams other than those which are clearly shown and labeled as such; houses; food areas or designated food zones unless otherwise noted; or any and all other land features that could be deemed topographical.

Note: The plot drawn hereon is subject to regulatory authority and is subject to change according to physical evidence (i.e. markings, painted lines, roads, lanes, ponds, fields of ownership, etc.)

I hereby certify that this is a category II & IV survey and that the ratio of prevalence of the unadjusted survey is at minimum 1/500 as shown herein and has been performed in compliance with current Tennessee Minimum Standards of Practice.
