This high class seven bedrooms, nine-bathroom estate comes with all of the resort style amenities and developed with relaxing and recreation in mind. From the beginning, every detail of this three-story, 14,706 square foot mansion was given exceptional

attention. Taking almost ten years and 8 million dollars to complete, the stunning interior features were handcrafted by Filipino artisans and shipped to the United States.

In addition to the main house, the property includes an additional 3 bedrooms, two bath guest house, and separate staff quarters which are located above the five-car garage.

This 2.44-acre property located on a peninsula in a gated community with 24-hour security presents the owner with complete privacy, a tranquil setting, and peace of mind.

INTERIOR DETAILS

Details are shown on the hand-carved interior doors and painted to be admired as functional works of art. The artistic detail on the outside grand columns was constructed using hand-hewn coquina rock, a feature virtually impossible to replicate. Custom ironwork is displayed throughout the estate and included on the grand staircase, spiral staircases, and the main interior balcony.

The first floor includes a spacious recreational room that has views of the resort-style pool and Lake Sheen. Adjacent to the recreational space is a movie theater with sliding entry doors featuring hand-carved movie posters with the likeness of numerous actors.

The home's details continue into the billiard-room, where the hand-carved columns include inlaid billiard balls, cues sticks, chess pieces and items reflective of the activities suited for the room. The columns add an animated feature to yet another space for entertaining guests.

One of the stunning features of the estate is the two-story rotunda library with a spiral staircase leading to the tops of the bookshelves. This enticing space showcases beautiful hardwood floors, floor-to-ceiling bookshelves, and custom lighting, perfect for someone to dive into a good book.

INTERIOR DETAILS

The estate's cathedral ceilings and spacious rooms have views of the resort style pool area and both lakes. The pool area includes a cabana bar, spa, separate sauna, full bath and laundry.

The interior also features hand carved molding throughout the living areas and bedrooms. The molding has been customized to reflect the different character of each room.

A wet bar is tucked away on the main floor between the main

living area and the recreational rooms. This beautiful feature is easily accessible and provides a centerpoint while entertaining guests.

The immense kitchen features massive amounts of storage and work space provided by the custom built cabinetry. A spacious butler's pantry with expansive storage separates the kitchen from the main dining room.
